

AIMA's Alternative Investment Bibliography

The Alternative Investment Management Association (AIMA) expresses its sincere gratitude to the Bank of Bermuda which undertook the groundwork of this Bibliography.

This bibliography focuses solely on alternative investment strategies, such as hedge funds, which are within the remit of AIMA. It does not cover real estate, private equity, etc. While not a definitive list, it eventually aims to list the majority of academic and educational material issued on these strategies and may give contact information, where known.

If you wish to suggest a publication for addition to the Bibliography, please send a note of the title, author, publisher and direct contact information to info@aima.org
